1.Albano

Project Overview

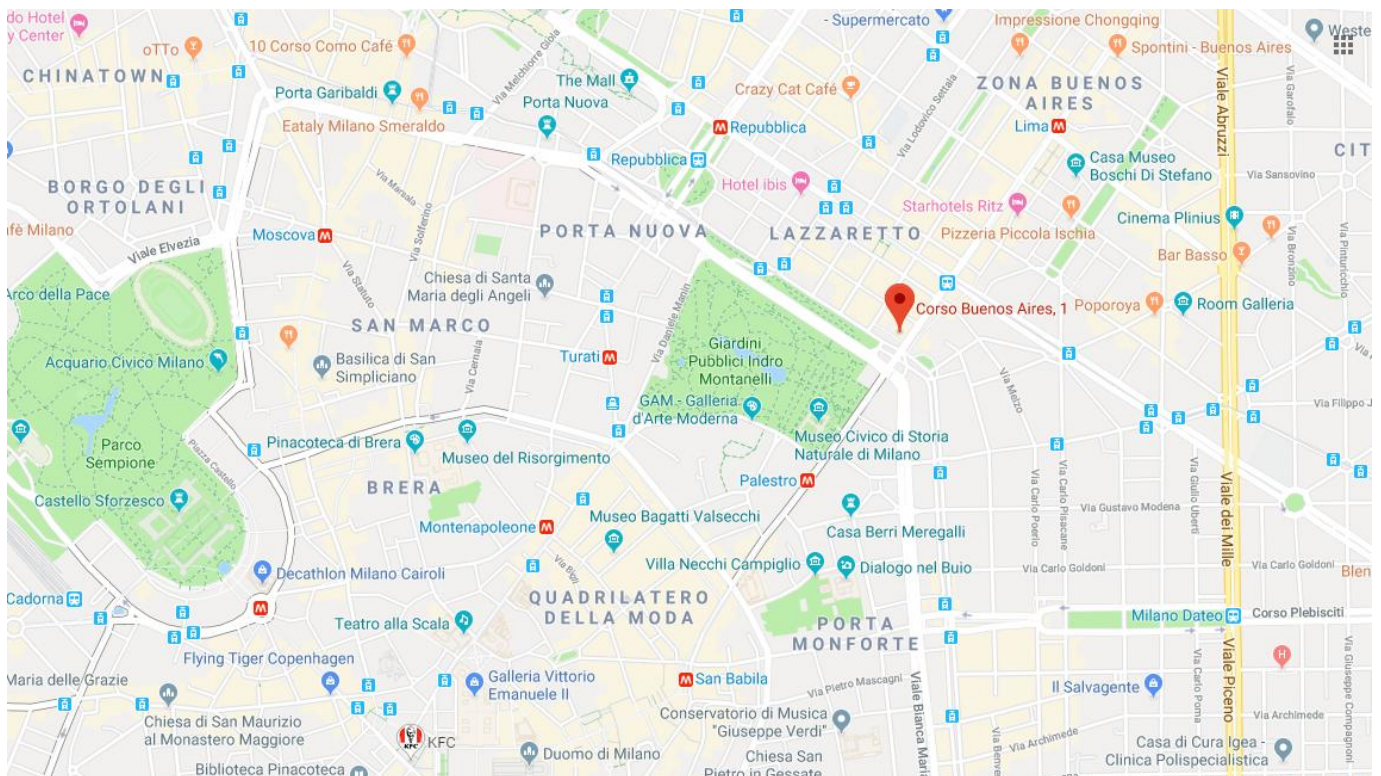

Albano is a leading Italian company in the footwear sector, which has been present for over a century and has always been a sign of style and class. The new ALBANO boutique in Corso Buenos Aires, at number 1 of the very central street, famous Porta Venezia overlooks in Piazza Oberdan. The structure extends 100 square meters on one floor with a mezzanine. The setting is inspired by a cozy living room with a modern taste.

Inside light structures with exhibition counter in transparency contrast with geometric pieces such as seats in shades of red. The boutique was designed by the De Simone studio in collaboration with the architect Gigliola Bossi, and they have created the atmosphere of the metropolis in a space extended and projected onto the street.
